**Board of Regents Respond to
Inspector Goodpaster's
Criticisms.**

Richmond, Ky., June 13, 1913.
Gov. James B. McCreary,
Frankfort, Ky.

Dear Gov. McCreary: On the 25th day of March last, there appeared an article in the Courier-Journal which stated that there was a meeting of the Sinking Fund Commission in your office and that there were present yourself, Attorney General Garnett, Auditor II. M. Bosworth and Secretary of State Creelins, at which meeting of the Board of Sinking Fund Commissioners you were prevailed upon to send your State Inspector, Hon. Sherman Goodpaster, to examine into the financial affairs of the Eastern Kentucky State Normal. The undersigned members of the Board desire to state that they have no criticism to offer toward you for ordering the Inspector to investigate the financial condition and accounts of the said institution and that they understand that the Board of Regents of the Eastern Kentucky State Normal School owes no duty to the Sinking Fund Commission to make any reports to them, nor is there any law, written or unwritten, by which the Sinking Fund Commission has any authority to criticize or demand an investigation of the affairs of this institution. The Inspector and his accountants came to Richmond to inspect the books and financial condition of said institution and the officers of the same rendered them every assistance possible for a fair investigation of the condition of the same.

There recently appeared in the public press what purported to be the substance of the Inspector's report on the Eastern Kentucky State Normal School, at Richmond. We were not favored with a copy of this report prior to its publication, and obtained it only by arranging to have it copied for us.

We deem it our duty to you and the public to make a statement relative to certain unwarranted criticisms contained in that remarkable report, because the Regents of the school are public officials, though serving without pay, and the public is entitled to know facts relative to the management of their State Institutions. His report was, to say the least, greatly misleading, incorrect in many important details and more particularly a mere expression of opinion that the management of the Institution has been extravagant, reckless and inefficient. Singularly, he had not a word of commendation; nothing but adverse criticism. In a few hours spent in the community and about the school he was able to conclude that the years of application of the Board of Regents to building and developing a new State Normal School had resulted only in blunders and reprehensible error, and had been productive of nothing that he could approve. Few men are so fitted as to unerringly know at a glance more about how a public institution or a large business concern should be managed than those who have continuously and patiently worked out every step and detail of its organization. That is precisely what the Inspector has assumed. In this assumption he has fallen into errors which we venture to point out. He devotes about one-fourth of his report

Ladies Indian Hair Grower

to quoting and construing the statute relative to State Normal Schools. We were somewhat edited by the construction he put upon said acts, especially in view of the fact the same were written largely by two of the members of the Board, namely: Sullivan and Casmack. With due respect to the Inspector, we prefer to adhere to the construction put upon said acts by those who wrote them, for we believe that they were in better position to understand them than your Inspector.

About three-fifths of the report consists of tables and financial statements furnished to the Board of Regents, by the President and Treasurer of the school, as is done every month. These statements were not taken from our books by the Inspector or his accountants, but were our own regular monthly and quarterly statements. They were accepted by him, apparently, and he did not even suggest a doubt as to their accuracy. The remaining portion of his report, less than one-fifth of the whole, seems to be original, and consists of the Inspector's views as to how the school should be managed, wherein he thinks the Regents should have acted differently. It is to this portion of the report that we desire to give attention.

1st. The Inspector says that the Regents bought a farm for \$18,800, a house for the President for \$12,500 and built an addition to Sullivan Hall for \$29,400, without warrant of law; to quote him: "The Legislature never intended to give the Board of Regents such latitude, and they have certainly exceeded their authority and have paid out money and contracted obligations for which there is no warrant of law."

In presenting to the last General Assembly the needs of the institution, we placed in the hands of every Representative and Senator a copy of the Eastern Kentucky Review for January, 1912, (the month in which the General Assembly met), in which we presented, on page 8 the following as recommended by the then State Inspector and Examiner in his report to the Governor on this school:

(a) "The present girls' dormitory is very inadequate and another is urgently and badly needed. The present one cost \$50,000 and this same amount is needed for a new one. About 100 girls are now compelled to seek room and board in private homes."

(b) "About 100 acres of adjoining farm land is a very great need indeed, as it would enable them to raise all that is required for dormitory purposes and table use. In addition to this, it is needed for the purpose of teaching agricultural pursuits, which is becoming very generally taught and is destined to prove of the greatest good to the whole State. The necessary buildings, such as a farmer's house, dairy, stable, etc., would follow, and it is estimated that the 100 acres and buildings could be secured for about \$30,000."

(c) "Old Burnham Property.—This consists of a two-story building of about eight or ten rooms and occupying 200x400 feet of ground, and is located in a corner of the school campus and to any one passing by it would be supposed that it was a part of the school property, and it should be, because it would square off the campus. The Board of Regents desire to purchase this property and convert it into a residence for the President of the school, and it should be done by all means. I am advised that the owners are willing to dispose of it and are asking about \$12,000, and I do not think this price is at all unreasonable, but on the contrary, reasonable."

Desires placing this publication in the hands of members of the General Assembly, the same urgent needs were presented to the Committees of both houses and to members individually.

That Legislature, with these and other items of desired appropriation before them, did make an appropriation "for the benefit of the three State educational institutions, namely, State University, Lexington, Ky.; Eastern Kentucky State Normal School, and Western Kentucky State Normal School; appropriating money for necessary equipment and for expansion of work, etc."

In this appropriation bill, this language is used: "That the additional sum of thirty-five thousand dollars is hereby appropriated for the current official year, and for each succeeding year for the benefit of the Eastern Kentucky State Normal School, a necessary part of which appropriation shall be used to meet as far as possible, the pressing demands, (for) agricultural instruction, for instruction in household economy and for manual training in the respective departments of said institution, and the same is directed to be paid by the Treasurer of the State to the Treasurer of the said State Normal School, upon warrant or warrants issued by the Auditor of Public Accounts, who is hereby directed to draw and issue said warrants, for the purpose aforesaid."

In the light of the foregoing and with former State Inspector's report on file in his office, for Mr. Goodpaster to say that the Legislature did not mean to give this Board authority to do what we have done for the "benefit" of this institution, is a pitiable commentary on his ignorance of facts known to all well-informed Kentuckians who have watched, cherished and assisted in the building of this and other educational institutions of the State.

As to the purchase of a house for the residence of the President: Your Excellency knows the location of the President's house and the value of the same and that it was originally a part of the campus and plant now occupied by the institution. You know that on account of the proximity of this residence that even if it were not needed as President's Residence, it would be good policy to purchase it in order to keep it from going into the hands of persons who might not be in sympathy with the institution. But for a further and better reason the Board deemed it wise to acquire it. The presence of the President is needed on the campus for the control, assistance, and direction of the large number of students and for the care and protection of the properties of the State valued at \$100,000.00, which is entrusted to his care.

The Act of 1912 provides that agriculture shall be taught. The Board, in the utmost good faith and at the very lowest figures, purchased the farm of 112 acres, and is now and has been ever since the purchase of said land doing its utmost to carry out the requirements of the law. Mr. Goodpaster's opinion that it would have been better to rent land or use the campus for experimental agriculture is so ridiculous that we do not care to more than allude to it. Mr. Goodpaster says: "As far as the farm is concerned, it can never be anything but (Continued on Page 4, Sec. 2.)"

To the Public,
Through courtesy I signed a petition for R. B. Terrill, not thinking that any capital would be made of it, or that any undue influence would be taken by him or his friends, as has been done. I did not understand that I obligated myself by signing same, and I wish him and his friends to know that I and all my kindred as far as I can learn, will willingly support L. C. House for the nomination for clerk of Madison county, COLBY GIBBS. 73-31

We have arranged for a Special Sale

On the celebrated Stearns & Foster Mattress and are offering this most Comfortable, Durable and Sanitary of all Mattresses, in selected patterns of the best qualities of Satin-finish, Dust-proof Tickings—WITHOUT EXTRA CHARGE.

Beware of so-called "Special Sales" on "Cotton-felt" or "Felt" Mattresses—said to be the "genuine kind" and offered at such ridiculously low prices as are sometimes seen displayed. You do not know WHAT sort of material has been hastily STUFFED into the ticking. From a Sanitary standpoint, it may be vile; unfit for any person to sleep upon. As for genuine Comfort and Durability, such Mattresses are utterly worthless. It don't pay to buy them.

Stearns & Foster Mattresses have a laced opening (Pat. applied for) through which you can see and examine the inside of the Mattress you GET. That's the safe way to buy a Mattress. You know what you are getting.

Stearns & Foster Mattresses are made of Clean, Sanitary Cotton; felted into hundreds of little webs forming many Springs. Buoyant layers standing nearly three feet high. These layers are then LAID BY HAND and compressed to ONE-SIXTH their original height and encased in the ticking; then tufted to just the proper tension so as to be Soft, yet Firm, half yielding to your figure, but supporting it in perfect relaxation.

You will say—

"I never Knew a Mattress could be so Comfortable."

That's just what satisfied users of Stearns & Foster Mattresses are saying. You owe it to yourself to get one and enjoy rest that is Refreshing—Comfortable—Healthful.

You don't have to be put to the expense and inconvenience of sending a Stearns & Foster Mattress away to be "Made Over" or "Renovated." They never require it. An occasional Sun Bath keeps them fresh and clean.

Don't Fail to attend this Sale. Come today.

Select the Mattress you want—NOW. Don't put up longer with that old uncomfortable Mattress.

Has the Hustling Cash Store sold so many more goods so far this season than ever before?

Why have Hamilton Bros. at such an early date, had to search the markets for an almost new stock of spring merchandise?

Why do we buy these goods always at bottom prices?

BECAUSE

Because we sell for cash and can, of course, pay cash. And by paying spot cash we can get the lowest possible market price

Because we are satisfied with a reasonable profit and MAKE GOOD what we say about every article sold

Because we buy often and keep our stock fresh and new, and extend a courteous invitation and cordial welcome to each and every patron. Therefore

A Chi-Namel Demonstration That Is Different

You can ask the Demonstrator to show you any Chi-Namel product you may be interested in, actually applied.

For instance—White Enamel, Porch Furniture Enamel, Gold and Aluminum Paint, Varnish Remover (the kind that softens old varnish so it can be washed off with a common scrub brush and clear water) Floor Wax, Furniture Polish, Mission Stains, Colored Varnishes for staining and varnishing with one application

She will not merely show you the package containing these materials, but show it in the brush, and applied before your eyes—in fact, you can take the brush and apply it yourself.

You can see the actual colors—see how easy it is to apply—how all brush marks disappear before it hardens.

This will be a demonstration worth while for any one who is responsible for the care and good appearance of the interior woodwork and furniture of the home. By asking for a demonstration of any particular Chi-Namel product you will not place yourself under obligation to buy; this demonstration is to acquaint the public with the use and economy of Chi-Namel in the home.

Celebrated His Birthday.

That splendid gentleman and genial bachelor, Mr. W. B. Lackey, fittingly celebrated the anniversary of his birth Sunday, at his home on West Main street. A number of his kinsmen and a few intimate friends greatly enjoyed the occasion. A sumptuous repast, consisting of wholesome and toothsome dishes, had been prepared and a most delightful day was spent by all present. The birthday cake, which was a rare product of the culinary art, was decorated with 31 varicolored candles, adorning the center of the table. As a host, "Bolton," as he is known to his friends, was par excellence, and all felt that it was "good to be here." The occasion was one that will long be remembered by all present. Mr. Lackey received a number of useful presents and his many friends sincerely hope that he may live to celebrate many birthdays. Those present were: Mrs. W. W. Williamson and daughter, Miss Esther, of Minneapolis; Mr. and Mrs. William Powell, Mrs. Mollie Powell, Mrs. B. M. Chief Allman Had Big Time.

Chief James H. Allman is back from Washington City, where he attended the great convention of chiefs of police. Fully four hundred were in attendance and considerable business of importance was brought before the body and disposed of. The body was royally entertained while in the national capital and the keys of the city were literally turned over to the chiefs. One side trip that he enjoyed very greatly was a boat ride on the Potomac down by Mt. Vernon. A fish fry was given on this jaunt and Chief Allman got his first taste of planked Potomac shad. And we might add that those who have never eaten planked Potomac shad have almost lived for naught. A reception by President Wilson was a pleasing feature of the meeting. Each visitor was given a hearty handshake by the head of the nation, who expressed his delight at having the splendid body of men in his home city. Chief Allman says that everybody has a good word for President Wilson and that the republicans seemingly are as proud of the splendid record he is making as the democrats are. "Had a great time but am always glad to get back to home and Richmond," said the fine old gentleman, who looked as if he meant what he said.

Our Clothes Stay Looking Well

How many times has it happened that you have selected a suit, worn it the first day, and then had the disappointments begin?

- It didn't look as well the second day
- It didn't fit quite so well
- It didn't suit your individuality so well as you first thought.

We don't stand for these clothes disappointments, that's why we secured the famous

ADLER'S COLLEGIAN CLOTHES

The makers of these famous clothes don't stand for clothes disappointments either. They stand right back of us in seeing that you are SATISFIED, GLAD and PLEASED every day that you wear an Adler Suit. These clothes MUST stay looking well. They must fit and hold their fit. They must wear properly. That's part of the famous Adler Collegian Clothes Service.

We are not satisfied and they are not satisfied unless you are satisfied.

And yet the prices are no higher than for the in-different kind.

Board of Regents

(Continued from Page 1, Sec. 2.)

a bill of expense to the State.

Notwithstanding this opinion, the farm account on June 1, '13, shows a profit of \$51.96 for the first five months of this year, besides being the necessary means of affording the required agricultural instruction to the students.

(2) He claims that \$100.00 was donated to the city of Richmond for the purpose of paving Second street, which pavement does not touch the property of the school. It was apparent to your inspector or he could have ascertained by most meager investigation, that the side walks of Second street did not reach the campus and that the city of Richmond would not and did not until the Eastern Kentucky State Normal School donated the \$100.00 appropriated any of its funds towards the construction of a side walk along Second street to the campus. Before this was done, the students, both ladies and gentlemen, had to walk through the mud and deep and over a poor macadamized road for several hundred yards along Second street from the campus to the sidewalk on said St. constructed by the city. We made that contribution to the building of this side walk in order to conserve the health and comfort of students who necessarily had to pass along that street.

(3) Another criticism is the sum of \$200.00 annually paid to the Water Company of Richmond for four fire hydrants located on the campus, which expenditure he says, "I certainly object to." When the State acquired the campus for school purposes, there were no water mains nearer than 1500 feet to the campus. In order to get protection from fire, the Board of Regents entered into contract with the Water & Light Co. that it would construct a main 1500 feet to the campus and 1500 feet off the campus and put in as many as four hydrants at convenient and appropriate places on said campus, that the institution would annually pay the Water Company \$200 for same. We will continue to give to the State's property this necessary fire protection and do not doubt that we are serving the State's best interests and protecting the lives of the students by so doing.

(4) The Inspector says: "I very much doubt the wisdom of putting the State in the attitude of owning and operating a book store." The campus is located about one-half mile from the business section of the town. As a matter of convenience to the student body and with a view to giving them books and supplies at the cheapest prices possible, the Board of Regents, after endeavoring to have them supplied by downtown dealers, several years ago installed a book store and charge the students a very small profit above the cost price of same. The store has been paying a small profit to the institution and furnishing to the students whenever they need such books and supplies at the least possible cost. Such little conveniences as blotters, pens and ink, scissors, gymnasium shoes, blouses, and \$2.50 worth of safety razor blades have been handled by the institution. Your Inspector without knowing the necessity of the same, without taking the time to investigate the necessity of it, objects to the Book Store. Our experience has taught us that it is a great convenience, and indeed a necessity. He says that some one suggested to him that the Book Store is maintained in the interest of the American Book Co. The records of the Book Store show that \$1,185.75 of books and supplies were handled since September 1, 1912. Of this sum only \$54.37 worth were purchased from the American Book Co.

(5) Your Inspector criticizes the bringing together of the school superintendents of the Eastern District annually for the purpose of discussing the needs of the common schools. Your Inspector is evidently not a school man, nor conversant with the conditions in Eastern Kentucky. Great good has resulted to the educational uplift of Kentucky from the coming together of the school superintendents in annual convocations. They were able to tell us what was needed, and thereby aid us to better train the teachers for their schools. We greatly regret the necessity of discontinuing such convocations.

(6) Your Inspector objects to the advertisement of the School in the county papers and educational journals, intending to leave the impression that the Board of Regents is in papers outside of Kentucky. No advertising has ever been done by the institution in any paper outside of the State of Kentucky except in the Kentucky Edition of a Cincinnati paper, which circulates largely in the counties of Kenton, Campbell, Boone and Pendleton. Such publicity, through the medium of the press, has done much good, and we are heartily in favor of such methods of telling the people what we are doing for their teachers.

(7) Another item that has distressed your Inspector very much is the expense of \$444.65 paid out by the Board of Regents to prevent the spread of small-pox in the school. We submit that in our judgment it was a good investment, because at the time when small-pox appeared in the institution there was an enrollment of more than 300, and it meant a disbanding of the work and a reckless exposure of the student body to the two small-pox patients who had it and rather than act upon the standard of wisdom that your Inspector possesses, the Board took a broader and more humanitarian view and expended the paltry sum of \$444.65, kept the student body in tact, and limited the number of cases in the institution to two patients.

(8) The Inspector says that on June 30, 1913, the institution will be in debt \$81,761.98, with no assets. This statement is not correct. It has been the custom of the Board to make a budget covering two years, and work within those limits. This fiscal year, ending

June 30, next, is the first half of that Biennium. The following is a correct statement of the financial condition of the school, taking into consideration the income and expenditures for the two fiscal years, half of which is now past. Estimated items for the next fiscal year are based upon the known similar items for the year just closing.

On July 1, 1914, there will be Bills Payable No. 1 and No. 4 outstanding, as noted above, amounting to \$19,066.66. The School's finances were exhibited to the Legislature of 1912, showing a net debt of \$13,468.88. It will be seen, therefore, that during the Biennium the School will have conducted and developed the school effectively and reduced her debt \$14,402.22.

It should be noticed that the note to Central University for \$14,900 was given several years ago in payment for a strip of land east of the campus known as "Faculty Row." On this land we have built a large dormitory and a recent addition thereto, and the central heating and lighting plant. There were several dwelling houses on this property when we acquired it. Rentals from them almost pay the interest on this note, which bears only 5 per cent interest. If desirable to dispose of this property it can be done as to leave us the ground occupied by the dormitory and heat and light plant free of cost. The Board thought and still thinks that they acted with prudence when they bought this property years ago. The note given for this property is not due, and Central University is entirely willing that we let it run as long as we wish, which can be done with little or no expense to the State, interest being paid with rents received from the houses on the property. The campus with a few dilapidated houses thereon, unfit for use without a great amount of repair done to them, were donated to the State of Kentucky by the citizens of Richmond in the summer of 1906. The Board of Regents appointed them are still serving now. The school has grown from year to year under the supervision of this board until the enrollment by the first day of July will exceed 1,200. The policy of the board has been and will continue to be to build for the future and make of the institution one of the largest, best and most efficient schools of the kind in the United States. In our effort to accomplish this purpose, we call upon you and all faithful Kentuckians to visit the institution, investigate the official acts of the Board and the work done by the teachers and the student body. That co-operation we feel sure to secure from you and all others interested in the success of the common schools of our State.

We are sending copies of this letter to the press.

Most Respectfully,
J. W. CAMMACK,
FRED A. VAUGHN,
P. W. GRISTEAD,

No Substitute Could Do This

No inferior substitute, but only the genuine Foley Kidney Pills could have rid J. F. Wallich, Bartlett, Neb., of his kidney trouble. He says: "I was bothered with backache, and the pain would run up to the back of my head, and I had spells of dizziness. I took Foley Kidney Pills and they did the work and I am now entirely rid of kidney trouble. My father-in-law, now past 80 years, has taken them and they have added years to his life." The Kentucky State Board of Health, in its recent reports, estimated there are in Kentucky 20,000 cases of tuberculosis. Why don't they use Smith's Lung Tonic? Price \$7.00 per gallon. Listen to this statement:

This statement I take great pleasure in making: Dr. T. B. Smith cured my sister, Mildred Richards, of consumption 43 years ago, after being given up by physicians and after being thought dead once or twice. It was a marvelous cure. W. P. Richards, Nicholasville, Ky.

Philip Barnard, New Philadelphia, Ohio, states:

"I had three specialists to treat my wife; they told me she had tuberculosis or consumption and could not get well. I had used numerous remedies before I sent for the specialists, finally as a last resort, I sent for a gallon of Smith's Lung Tonic. She is now well and has been since December 1911."

Smith's Lung Tonic is just like Smith's Liniment, 10 years test has proven this Liniment the best. Who doubts it? The man who has never tried it.

CHAUTAUQUA SEASON TICKETS.

In arranging to inaugurate this chautauqua this year the local committee bought 1,000 \$2.50 season tickets, which will be sold while they last by them for \$2.00 each.

When these tickets are exhausted no season tickets thereafter can be had for less than \$2.50. Also, the price of season tickets will not be reduced from the first day to the close of the chautauqua.

The single admissions to the different sessions of this chautauqua aggregate more than \$5.00, so it will pay you to buy a season ticket even after the program is half completed. For the single admissions to the respective

Season tickets are non-transferable except within the owner's family.

CHILDREN'S TICKETS admit children aged six to fourteen years inclusive. Only child's tickets will admit children to the children's work.
